TAXWORX

simply solved

The VAT Challenge

Managing the new VAT rules can be complex, costly and time consuming.
In meeting the FTA requirements for VAT, you may be looking for:

- 1 Expertise** Additional expertise to interpret the law and manage VAT now and into the future as the law changes
- 2 Recovering VAT** Ensure you are recovering all eligible VAT and have confidence it's accurate
- 3 Compliance** Submit accurate claims on time, avoid penalties and meet the UAE Federal Tax Authority requirements on record keeping
- 4 Reporting** Real-time reporting model that gives complete auditability to report on VAT whenever to
- 5 Control** Control your budget, predict the cost of VAT compliance and know its secure and available at anytime

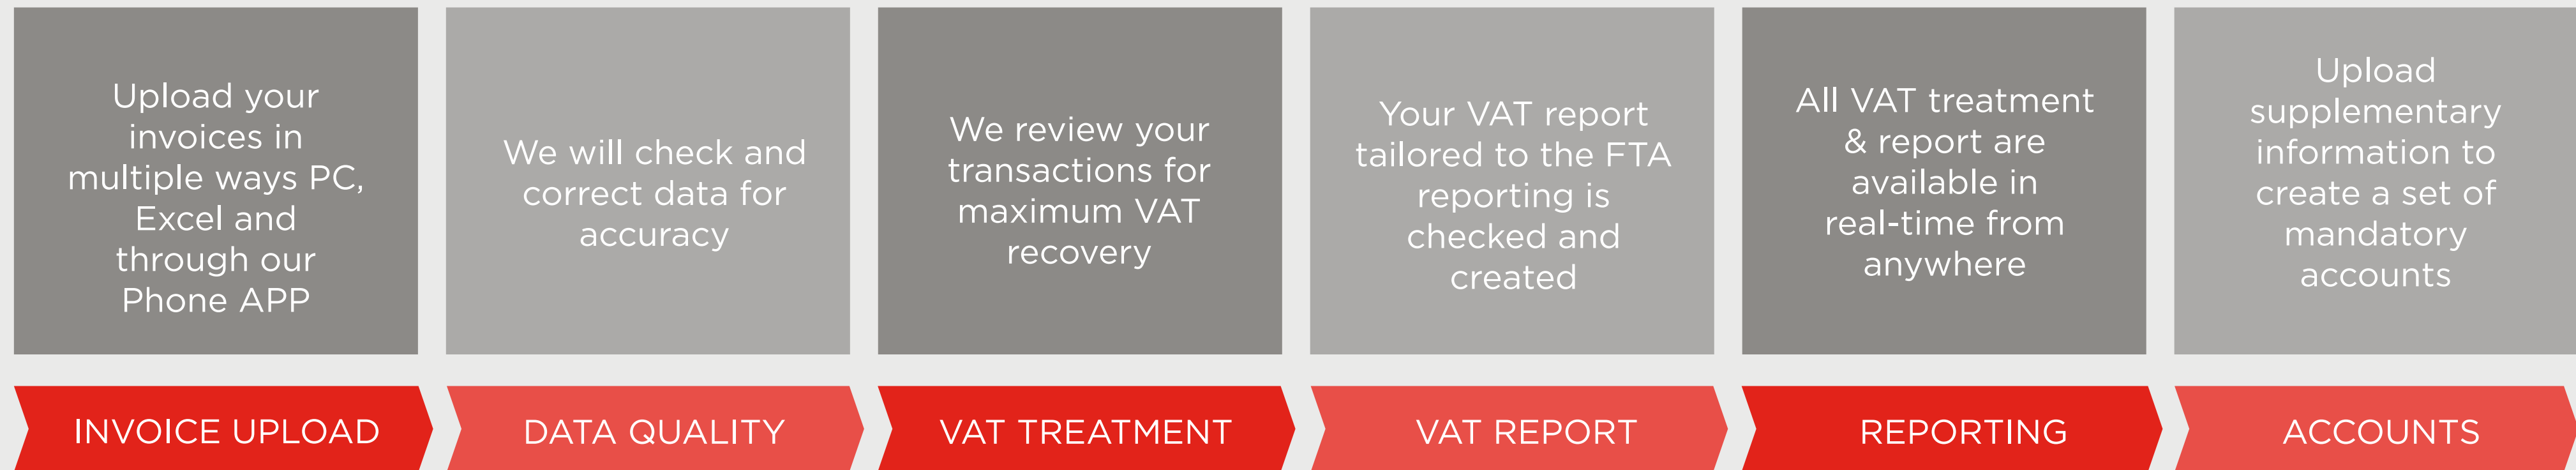

- We are more than a bookkeeping & accounting partner, we provide both the accounting expertise and technology to solve these challenges and submit your VAT returns with confidence

TAXWORX provides a suite of affordable and modular solutions that grow with your business. Our services are specifically designed to the GCC & Federal Tax Authority compliance legislation without the need for new software or personnel.

Our VAT & Accounts Service

Simplify VAT, maximize refunds and improve compliance

All your purchase transactions and VAT are checked to UAE legislation.
Your data is secure , available from anywhere and accessible only to you.
With a few clicks, our simple to use online reporting will trace VAT fillings back to its original invoices.
